A Prison Sunday.

To the Receding Clergy in the State of Michigan:

The Board of Corrections and Charities respectfully inform the clergy of the state, that the National Prison Association will hold its annual meeting in Detroit, commencing October 17th, and continuing four days. The association is anxious that the meeting should be in all respects a worthy one; through it they hope that the association may be fairly set on its feet as a directing, or at least, guiding force in the affairs of the country. Ex-president Hayes, the president of the association, will be present, and a good many governors and ex-governors. The board hope that you will attend the meeting and induce the attendance of others. They also beg leave to suggest that the Sunday preceding or following the meeting, shall be made a Prison Sunday, discourses being delivered in the interest of prison management and reform in their wide bearings. In making this suggestion they are following the lead of other states. According to the tenth census of the United States, 1880, there are constantly in the various penal institutions in the U. S. nearly 60,000 persons; and in juvenile reformatories nearly 12,000. In our state the average number of prisoners during the year is at least 1,500, and in the reformatories over 500. Among the questions that particularly interest those officially related to our prisons are: The jail system, dealing with juvenile and first offenders, the tramp evil, the province of justices' courts, the employment of prisoners, indeterminate sentences, the relation of the state to the families of those imprisoned, punishments and rewards, and provisions for discharged prisoners. Among these are certainly matters that may very properly be introduced into the pulpit. The relation of the citizen to the criminal classes as one of interest, of benevolence and religion, is little understood. From this comes much of the difficulty in prison reform. The state board ask the co-operation of all citizens in their efforts to make our prisons and reformatories in Michigan after the best models in our own and foreign lands. They appeal to the clergy as leaders of thought, and as brought into contact with the people more than any other class.

The secretary of this board will furnish from the office at Lansing such printed information as may be in his power, on application.

R. A. ALGER, Governor of Michigan, ex-officio.
